

SIMULATION CAMP

Monday, July 21 - Thursday, July 24 // 8:30 a.m. - 12:30 p.m.
CVTC Health Education Center

Are you ready for a one-of-a-kind healthcare adventure? Look no further than CVTC's interprofessional healthcare simulation camp!

Spend four days exploring a variety of healthcare fields such as Medical Laboratory Technician, Medical Assistant, Nursing, Respiratory Therapy, Physical Therapy Assistant, and Radiography. This camp will highlight the importance of collaboration between healthcare professionals as you discover how different healthcare fields work together to provide the best care possible for patients. And the best part? You learn to perform actual procedures like assessments, drawing blood, and placing a breathing tube on a simulated patient! That's right, you'll be getting hands-on experience and practical skills that could lead to a future career in healthcare. And to top it all off, you'll earn a **\$500 CVTC Foundation Scholarship** to use toward a class at CVTC—an exciting step toward your future in healthcare!

Start your summer healthcare adventure by scanning the QR Code and using **YOUR** school email address to fill out the google form.
