

College Credit Opportunities

- 1. Advanced Placement (AP) Courses:** Chippewa Falls High School offers a variety of Advanced Placement courses. These are college-level courses that are taught within our building. Students may receive college credit at colleges/universities if they score a 3, 4, or 5 on AP Exams in May. Credit varies by post-secondary institution. More information can be found on the College Board website. Course Offerings Include: Art History, Biology, Calculus, Chemistry, English Language, English Literature, English Seminar, Human Geography, Music Theory, Physics, Psychology, Spanish, Studio Art, U.S. Government & Politics, and US History. Be sure to check prerequisites!
- 2. Cooperative Academic Partnership Program (CAPP):** CAPP courses provide a convenient and affordable way for students to earn concurrent high school and UW-Oshkosh college credit, while developing key skills for future success. In a UW-Oshkosh CAPP course, you will experience the challenge of college curriculum while in a high school environment. Students are responsible for the cost of the college credits (approximately \$100 per credit) and the grade will appear on a university transcript. The two CAPP course offerings are United States History and Study Skills & Reading for College Success.
- 3. Transcribed Credit:** Transcribed credit allows students to take courses that are articulated with Chippewa Valley Technical College (CVTC) for both high school and technical college credit. Transcribed Courses include: Abnormal Psychology, *Accounting 3, Animal Science, Child Development 0-2, *Horticulture, Working with Children, Computer Applications, Intro to CAD, Medical Terminology, Personal Finance, Practical Welding, *Principles of Management, and Welding Technology. *Pending approval.
- 4. IT Academy** is open to juniors and seniors. Upon completion students receive 2.25 high school elective credits and 9 credits at CVTC. Students also earn an industry recognized Information Technology Certificate from CVTC. Application is required for admission into the IT Academy. **EMT Academy** is another possible opportunity for students, but it is subject to availability and is delivered at CVTC, Eau Claire Campus.
- 5. Project Lead The Way (PLTW)** applies science, technology, engineering, and math through a project-based, hands-on approach to solve complex, open-ended problems in a real-world context. Five courses in PLTW include: Computer Science Essentials, Civil Engineering and Architecture, Digital Electronics, Introduction to Engineering Design, and Principles of Engineering. Students who successfully complete one or all of these courses AND earn a specific score on the final are eligible for college credit at some colleges and universities.
- 6. Early College Credit and Start College Now Programs:** Early College Credit Program allows Wisconsin high school students to take one or more courses at an institution of higher education for high school and/or college credit. Start College Now allows junior and senior students to take courses at a technical college. Early College Credit and Start College Now have rules, regulations and deadlines. [Click here](#) for information about the process, procedure and required materials.
