

HOMWORK REQUESTS

Students with excused absences are allowed to make-up homework within a reasonable amount of time designated by each individual teacher. Students have access to all assignments through Canvas and can access them at any time. This is the preferred way for students to access assignments when they are absent.

Parents can also request their students' homework by emailing the teachers directly (*by accessing your student's schedule on Infinite Campus*). Staff email addresses are also available on our website. If you do not have email access, requests may be made through the Health Services office (715-726-2406, ext. 1084) after the student has been or will be gone three consecutive days.
