### Curriculum:

Our curriculum supports our strategic planning goal: Students will graduate prepared to succeed in post-secondary education and careers, having the knowledge, skills, attitudes, and behaviors necessary to achieve their personal goals and contribute to the common good. A combination of Advanced Placement, career and technical education, fine arts, world language and other post-secondary/dual enrollment classes provide students with the necessary tools to be college and career ready. Additional opportunities are provided through work-based learning.
